PURPOSE:

To seek approval of Letter to All Special Agents in Charge (SACs) alerting them to furnish information indicating involvement by persons in United States in attempt to disrupt games or use games as situs for espionage directed against United States.

BACKGROUND:

Current student riots in Mexico City, influx of large number of communist contingents to Olympic games and racial overtones of current boycotts of the games give weight to fears by Mexican Government of leftist attempts to disrupt the international proceedings.

U.S. RAMIFICATIONS:

While there have been no allegations of direction of current Mexican student unrest by U. S. subversive elements, we do know that individuals from this country with subversive backgrounds have been arrested for participation therein. Arrested have been members of militant Black Panther Party, representatives of the National Lawyers Guild and persons active in facets of peace and "New Left" movements in the United States.

OBSERVATIONS:

The current tensions in Mexico City point toward possibility that Olympic games will be used as a focal point for demonstrations and activity favoring leftist, subversive and militant racial elements. It is not impossible persons from the United States may gravitate to Mexico City in furtherance of these demonstrations and activity. The field should be alert to such movement and appropriately advise Bureau instituting investigations called for if current investigations are not being conducted regarding individuals involved.

b7D
[REDACTED]

RECOMMENDATIONS:

That all offices be alerted to furnish information received indicating travel to Mexico of persons in United States with background and activity of nature described above.

(G) OLYMPIC GAMES, MEXICO CITY, MEXICO - OCTOBER 12-27, 1968 -- Information from our domestic investigations and data supplied by the Legal Attache in Mexico City indicate political climate in Mexico City and tensions created by racial and political pressure groups could result in serious detriment to tranquility necessary for successful outcome of the international Olympic games. Individuals and groups within United States could participate in activities related to the games which are of importance to the Bureau in its internal security investigations and to the Mexican Government in the latter's endeavor to provide full security for the Olympic contestants and successful outcome of this international athletic event. *TX u*

The principal threat to the games currently is the violence and political unrest created by current student demonstrations in Mexico City which have been the subject of considerable publicity. While there have been no positive allegations that these demonstrations are receiving support or direction by factions within the United States, it is known that individual citizens of the United States, possessing histories of subversive activity, have been arrested for personal participation in the riots. Among such individuals arrested were members of the Black Panther Party, representatives of the National Lawyers Guild and other individuals who have in the past participated in "peace" and "New Left" activities in the United States. *TX u*

b7D [REDACTED] Anti-Castro exiles in the past have made similar plans and have traveled abroad to attack Cuban establishments. It can be expected that they will plan various militant anti-Castro activities during the games. Such activities could include assassination attempts against or kidnaping attempts of the Cuban officials and athletes attending the games; bombings of various buildings housing the Cuban contingent; and demonstrations of various types. *TX u*
